## SUMMARY

---

Over the past 4 years, I've built products for companies and businesses, from marketing websites to complex solutions and enterprise apps with focus on fast, maintainable and testable software.

## EDUCATION

---

Bachelor Degree(B.Sci)

**Computer Science. (3.4/4.0)**

**July 2015 - June 2019**

**Kwara State University**

## EXPERIENCE

---

**FREELANCING, Full Stack Web and Mobile Developer**

**Aug 2019 – present**

- Developed Numerous Tertiary Institution final years' project works.
- Collaborated with backend developers in developing secure and scalable frontend Environments.
- Developed, managed and maintain scout54africa website (An African based football scouting platform).

**PLAYSPREAD, Full Stack Web Developer**

**July 2018 – Aug 2019**

- Built a multi-role user authentication system from the ground up with PHP
- Maintained existing applications.
- Built frontend applications for our several clients. Most especially JavaScript and React applications.
- Interprets and converts UI/UX design screens to codes using HTML,CSS and JS
- Built java desktop application to help capture all data fetched from robots and make it usable in one platform
- Web scraping of all trending educational and political news in Nigeria using PHP

## SKILLS

---

- Rock-solid understanding of HTML, CSS and Javascript.
- Experienced developing responsive websites.
- Experienced developing Native android applications and cross platform applications using flutter
- A deep understanding of how the web works, including browser quirks, internationalization, security and performance.
- Experience with version control like Github and bitbucket.
- Proactive about projects and initiates efficient collaboration with other team members.
- Writes quality, highly-maintainable and testable code.
- Self-starter, open to new technologies and pragmatic about using them.
- Has the ability to iterate and ship ideas quickly, with loose (at best) direction.

## TECHNOLOGIES

---

**Programming Languages:** HTML, XML ,CSS, JAVASCRIPT, JAVA, PHP, SQL, DART, C

**Database:** Mysql, Sqlite, MongoDB

**Systems:** Linux, Windows OS

**Frameworks:** Laravel, NodeJS, Flutter, React.js, Express JS

**Others:** PWAs, Responsive web design, SE Optimization

## PROJECTS DONE

---

- [SCOUT54AFRICA](#)

Scout54 is an African scouting platform for footballers, I developed this system from ground up using Laravel framework as backend language, bootstrap and vue as frontend language

This system has multi-level authorization, user authentication, follow/unfollow system and image/video uploads with a chat support system using pusher, it was deployed to Digitalocean using ubuntu server

- [Shopnow](#)

Shopnow is an ecommerce project developed with MERN stack with the intention to build an advance solution in ecommerce, with paypal payment integration

This ecommerce system has powerful product filter, load more functionality, product upload with multiple image upload, product gallery, fast add to cart and paypal integration.

## AWARDS

---

**PLAT TECHNOLOGY:** Best graduating student in computer science, Kwara state university

**KWARA STATE UNIVERSITY STUDENT UNION:** Best male student award 2019/2020 session

**KWARA STATE UNIVERSITY COMPUTER SCIENCE DEPARTMENT:** Brain box award 2019/2020

## CERTIFICATES

---

- National Youth Service Corp (November 2019 – November 2020)
- Kwara State university Computer science BSc
- Certificate of service (Independent student electoral committee) KWASU
